A roundup of devices that help round out your life

July 10, 2008

By Peter Wolchack

#### Parla italiano?

#### Lingo Voyager 4

If you're heading out on vacation and you don't speak the local language, consider picking up a Voyager 4. About the size of a large PDA, it's a 14-language talking translator that handles English, German, Portuguese, Dutch, French, Spanish, Italian, Russian, Chinese, Japanese, Korean, Greek, Arabic and Hebrew. Overall, it handles more than 280,000 words and 32,200 useful phrases. It also packs in the New Oxford American Dictionary, a built-in voice recorder and eight games, including Sudoku.

The Voyager 4 retails for approximately US\$200.
